Note: This data is presented as supplemental information to the fully compliant GIPS[®] presentation. Please see page 4 for additional disclosure information.

Returns include the reinvestment of all income and dividends. Net of fee performance was calculated using actual management fees. Past performance is not indicative of future results.

* All current composite accounts are non-fee-paying, model net returns were calculated to show how deducting the maximum fee of 1% would affect performance. Net returns since inception with 1% fee would be 7.72% vs. 8.81% with no fee deduction. *** Zephyr creates domestic equity universes based on investment style / fund behavior using the Morningstar, Mobius, Nelson's, PSN, and eVestment Alliance databases. Ratings were presented by Zephyr StyleADVISOR as the result of surveys created and conducted by Zephyr. SCM did not pay a fee to participate in these surveys.

SECTOR WEIGHTINGS

SECTOR	Symons [®] Strategic Wealth	S&P 500 [®] Index
Consumer Staples	35.8%	7.3%
Utilities	16.5%	3.3%
Real Estate	12.5%	3.1%
Health Care	9.9%	14.6%
Consumer Discretionary	7.8%	10.1%
Communication Services	5.1%	10.1%

COMPOSITE NOTES

- The **Symons[®] Strategic Wealth Composite** was created on June 1, 2017. It consists of all fully discretionary portfolios that are managed in the Symons[®] Strategic Wealth style, excluding wrap accounts. The Symons[®] Strategic Wealth (SSW) strategy provides exposure to at least six of the eleven market sectors included in the S&P[®] 500 benchmark index, by investing primarily in approximately 60 to 90 established, sustainable companies, whose current prices appear to provide the prospect of long-term appreciation, with moderate rate downside price risk relative to each sector. The minimum initial investment in SSW is \$750,000. The minimum account size for composite inclusion is \$500,000.
- For comparison purposes the composite is measured against the S&P 500[®] index. The S&P 500[®] index is an unmanaged index generally representing the performance of the broad domestic economy through changes in the aggregate market value of 500 stocks, representing all major industries. It primarily includes large capitalization stocks that are representative of Symons[®] Capital Management's portfolio management and stock selection style. A direct investment in an index may involve different liquidity, risks and tax considerations. The Adviser may invest in securities outside of those represented in the indices. S&P 500[®] returns are shown for the entire composite history.
- Results are based on fully discretionary accounts under management, including those accounts no longer managed by the firm. The U.S. Dollar is the currency used to express performance. Composite performance is presented net of foreign withholding taxes on dividends, interest income, and capital gains. Returns include the effect of foreign currency exchange rates. Returns are presented gross and net of management fees and include the reinvestment of all income. Gross of fees returns are presented before management and custodial fees, but after all trading expenses and non-reclaimable withholding taxes. Net of fee performance is calculated after the deduction of investment management fees, using actual management fees. Since all current composite accounts are non-fee-paying, net returns shown in this presentation do not reflect the deduction of management fees. Past performance is not indicative of future results.
- The investment management fee for separate accounts is 1.00% on all assets. Actual investment advisory fees incurred by clients may vary.
- The annual composite dispersion is an asset-weighted standard deviation calculated for the accounts in the composite the entire year. It is not presented because, with five or fewer accounts in the composite, the information is not statistically meaningful. Three-year annualized ex-post standard deviation of the composite and benchmark are not presented prior to December 31, 2020, because monthly composite returns for the past 36 months were not available prior to that date.
- Securities purchased by Symons[®] Capital Management, Inc. are listed on a major exchange with published values. Generally, month-end valuations as shown on custodian account statements are used to calculate portfolio assets and returns. Any cash flow equal to or greater than 5% of a portfolio's market value would cause the portfolio to be revalued and accounted for properly so as not to distort performance. Policies for valuing portfolios, calculating performance, and preparing compliant presentations are available upon request.
- Symons[®] Capital Management, Inc. is an independent investment management firm, not affiliated with any parent organization, established in 1983 and registered with the U.S. Securities and Exchange Commission under the Investment Advisers Act of 1940. Prior to October 1, 2001, the firm was known as Dollins Symons[®] Management, Inc. The firm maintains a complete list and description of composites, which is available upon request.
- Symons[®] Capital Management, Inc. claims compliance with the Global Investment Performance Standards (GIPS[®]) and has prepared and presented this report in compliance with the GIPS[®] standards. Symons[®] Capital Management, Inc. has been independently verified for the periods January 1, 1996 through March 31, 2017 by Ashland Partners & Company, LLP; and from April 1, 2017 through December 31, 2018 by ACA Performance Services, LLC. Verification assesses whether (1) the firm has complied with all the composite construction requirements of the GIPS[®] standards on a firm-wide basis and (2) the firm's policies and procedures are designed to calculate and present performance in compliance with the GIPS[®] standards.
- The Symons[®] Strategic Wealth composite has been examined for the periods from June 1, 2017 through December 31, 2018 by ACA Performance Services, LLC. The verification composite performance examination reports are available upon request.
